

About Work Process

The Work Processes module is a tool to help define project tasks in a systematic and organised way. Work processes are easy to access and view from other applications within the Pims Preparation Execution System portal and for Project Team Members.

Type: User Documentation 08-Feb-2024 | Siri Benedicte Dahle

Key features:

- Multiple design options and tool functions.
- Easy to adjust sizes, create figures and swim lanes.
- Easy to set up connector lines and related connector text.
- Add colors that are pre-defined from colour codes.
- Add links to elements, such as other charts , sub processes or information in external systems.
- Add positions to swim lanes.
