166477	Documents Profile	A tooltip for "Replace file" icon has been added.
167832	Documents Register	Option to send reminders to contractors has been introduced.
163691	Follow-up	Column "Issued Date" has been added into ongoing reviews follow-up.

Changes & Improvements

ID	Feature	Description
140057	Batch Import	Improved document id validation when the id or some of it's characters are in different encoding.
156731	Batch Import	Import validation now shall check for existing draft revisions.
166856	Delegation	Review action delegation logging has been improved for cases when the delegatee already existed in the review.
173820	Delegation	Improved deactivated delegations handling for DCS scheduler.
162414	Distribution Matrix	Improved MDDM import by optimizing the process and minimizing the risk of table locking when multiple imports are being committed at the same time.
160458	Documents Profile	Updated "Add Author" lookup to only contain team members that shall have access to a document.
170272	Documents Profile	Resolved an issue that caused data discrepancies between searchable EngineeringTagsList and actual list of tags for a document in Operations domain when the document has been created in SM domain as DFO based on another document.
163348	Documents Handover	Various improvements have been made to enhance the process of handing over documents from the Project domain to Operations.
165505	Documents Register	Aligned the UI/UX of the Download Documents dialog with the overall design and user experience of the entire DCS.
172431	Documents Register	Optimized initial data loading.
172458	Documents Register	Introduced a pre-check for empty DCS Trays when sending documents for review or internal distribution.
173471	Documents Register	"Superseded" label shall now be shown in details panel in grid view, and in a card in list view.
131325	Domain Setup	Introduced a view to have an option to show company codes depending on selected contract.
163194	Domain Setup	Disabled concurrent engineering in Contract domain types.
162340	Domain Setup	Improving copy search setup configuration part from another domain when domain type is different.
170039	Domain Setup	New DCS domains now will be populated for members of DCS Scheduler role.
138638	Domain Setup	Changed handling of Obsolete Document Steps, Types, Groups in lookups, grids and copy procedures.
156093	Domain Setup	Removed restriction of using both 'Separator' and 'Length' options for Transmittal Numbering scheme.
172419	Domain Setup	Domain type has been changed from "Contractor" to "Contract" to align with system types.
171052	Follow-up	Users now must select documents from the list to add/replace/remove review receivers in Ongoing Review follow-up.
23878	General	Pims Tasks have been replaced with Scheduler Jobs.
168037	General	Performance of checking the trays has been improved.
155329	General	Added missing table permissions for "DCS Contractor - Ability to Create Documents" role.
164309	Home Page Actions	The performance of the list of assigned actions on the home page has been improved.
174019	Interface Documents	Resolved an issue that allowed skipping through various checks if a previous check had already been satisfied.
171060	Maintenance: Best Practices	Modal dialogs containing large grids can now be resized.
171920	Maintenance: Best Practices	Updated Review Status lookups to restrict data based on actual user's permissions.
149249	Reporting	Performance of report "Outgoing Transmittals and Correspondence, by Document" has been improved.
162604	Review	Improved error logging for situations where an error occurs during the review finalization process.
153306	Review	Revisions of internal documents now shall have their "Returned to Originator" date set on review finalization.
172902	Review	Improved password type identification on PDFs to prevent prompting for a password when it is intended for editing purposes.
140462	Site Modifications	Verification of the documents to be handed over can be performed separately before finalizing the handover.
164649	Site Modifications	Status in SM project's details now shall inform about document being superseded.
151480	Tags Upload	Performance of importing list of tags from an Excel file has been improved.
