Fixes

ID	Feature	Description
345846	3rd-Party Verification	Fixed an issue that caused system to fail email sending when contracts' representative emails were empty.
348055	3rd-Party Verification	Fixed an issue where emails were not being sent if the Representative email address was empty.
346316	Batch Import	Fixed an issue that prevented files upload to revisions with finalized reviews when contract has enabled file upload after review was finalized.
342652	Concurrent Engineering	Fixed an issue where project references were not marked as mandatory when enforcing project references is enabled on the document type when creating a new document.
350150	Correspondence	Fixed an issue where mandatory fields lookups were always sorted by the value field instead of the set field in configuration.
314488	Delegation	Fixed an issue that prevented users from manually deactivating a delegation when the user does not have a valid mailbox.
349632	Delegation	Fixed an issue that caused all participants of a review to delegate their actions to a single person.
343989	Distribution Template	Fixed an issue that caused the receivers section to be hidden on small resolution screens.
307652	Distribution Setup	Fixed an issue that prevented users from changing distribution setup for External Verification if default reviewer action type has been changed.
304691	Documents Profile	Fixed an issue that caused a small area for "Drop Files here..." when uploading a first file for a revision.
339750	Documents Profile	Fixed an issue that allowed users to set the Source Revision the same as the revision, thereby rendering the revision obsolete.
340445	Documents Profile	Fixed an issue where the link to contract details did not appear if the contract was missing a description.
345478	Documents Profile	Fixed an issue that caused improper resizing of Distribution Setup dialog.
314971	Documents Register	Fixed an issue that prevented external users from using common filters in documents register in Site Modification domain.
339733	Documents Register	Fixed an issue that resulted in downloading dummy file instead of showing an error when trying to export documents without applicable files.
348042	Documents Register	Fixed an issue that resulted in allowing internal users to populate the tray tables.
353023	General	Fixed an issue that caused PDF layers to not load up in PDF preview application.
343543	Home Page Actions	Fixed an issue that caused actions for disputed comments to be displayed before the replies were submitted.
350015	Review	Fixed an issue that prevented the change of deadlines for multiple reviews simultaneously.
356250	Review	Fixed an issue that prevented users from creating reviews when several delegations exist for the same person with same action type.
344397	Transmittals	Fixed an issue that resulted in not including alternative email addresses in the CC receivers list when sending a transmittal.
349792	Upload Documents	Fixed an issue that resulted in unhandled error in PDFs verification when uploading only non-PDF files.
